

COVID-19

May 12, 2020

Greetings,

The current situation on COVID-19 has created significant operational changes for many companies. Several Canadian manufacturers have temporarily ceased their operations. Therefore, the production of certain items may be slowed down by these closures, which may ultimately affect delivery times. Nevertheless, we will continue to respond to your requests to the best of our ability and will remain at your disposal for any information you may require.

Simultaneously, Logistik is deploying all available assets to assist the Canadian government in the production of medical protective equipment in light of the current situation, which is considered critical. We continue to monitor our supply chain capacity to ensure that we remain as efficient as possible in order to meet your urgent needs.

Thank you for your cooperation.

Louis Bibeau
President and Chief Executive Office
